DETAILED ACTION

 This Office Action is in response to applicant's amendment filed on September 30, 2004.

Double Patenting

2. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970);and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

 Claims 1-11 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1 and 8-17 of prior U.S. Pat No. 6,729,664. Although the conflicting claims are not identical, they are not patentably distinct from each other because:

Claim 1 of the current application recites that the device is for protecting first and second confronting furniture components. Claim 1 of the US Pat No 6,729,664 requires that the device be for protecting confronting moveable and frame members of a furniture piece. Although claim 1 of the current application does call for a moveable and a frame member (as a stationary member), the current claim 1 requires that the second component confronts the first component (lines 6 and 7), and that is an indication that the second member can move and that the first component is like a stationary member. Accordingly, it would have been obvious to one of the ordinary skill in the art that the second component constitutes a movable member and the first component constitute a frame or stationary member wherein the second component moves to confront the first component.

Also, claim 8 of the current application recites that the cushioning projection is generally semi-circular. Claim 14 of the US Pat No 6,729,664 requires that the cushioning projection be domed. It would have been obvious to one of the ordinary skill in the art that a domed shape constitutes a semi-circular shape.

As to claims 2-7 and 9-11 of the current application, these claims are identically worded as claims 8-13 and 15-16 of the US Pat No 6,729,664.

Conclusion

4. THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Application/Control Number: 10/820,186 Page 4

Art Unit: 3676

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Carlos Lugo whose telephone number is 703-305-9747. The examiner can normally be reached on 9-6pm EST.

for reply expire later than SIX MONTHS from the mailing date of this final action.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Daniel P. Stodola can be reached on 703-308-2686. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9306.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 703-306-5771.
